

**DORMER**  **PRAMET**

**Simply Reliable  
for more than 100 years**

# ONE COMPANY

**Dormer Pramet provides one of the most versatile cutting tool programs in the industry.**

A wide range of rotary and indexable drilling, milling, threading and turning tools from one single source, delivered together in one box.

The quality products from Precision Twist Drill, Dormer, Union Butterfield and Pramet provide customers access to high quality, fit-for-purpose cutting tools.

Our objective is to help your operations run smoothly with secure supplies, uninterrupted production and a fulfilment of a **SIMPLY RELIABLE** promise to our partners.

## DORMER PRAMET

Dormer Pramet is a proud member of

## PRECISION TWIST DRILL

Precision Twist Drill has delivered quality cutting tools since 1952. What started in a suburban Chicago garage has grown into a recognized brand of high quality, reliable drills. The extensive portfolio of HSS and cobalt drills, including our National Aerospace Standard (NAS) tools, are designed to support all segments of manufacturing.

## UNION BUTTERFIELD

With roots dating back to 1895, Union Butterfield is recognized as a leading brand of HSS general threading tools. The FlashTap® program provides second-to-none speed of delivery (as fast as 24 hours) combined with quality and consistency.

## DORMER

The Dormer name is globally recognized as a performance leader in round tools. The program includes HSS, cobalt and carbide drills, taps and end mills; delivering high productivity solutions suitable for all production environments. Focused on flexibility, the brand has been simplifying customers' cutting tool selections since 1913.

## PRAMET

For more than 60 years, the Pramet brand has offered a world class range of indexable cutting tools which deliver value and versatility across a wide range of drilling, milling, threading and turning applications.

# ONE TEAM

We passionately believe in building long-term partnerships, sharing our expertise and being honest and open at all times. These qualities are deeply rooted in the fabric of our company and every Dormer Pramet team member is charged with upholding and promoting these values with pride. We understand that we can only be successful if you are successful, which is why we are committed to providing you with what you need, exactly when you need it. That's how we continue to build trust. **It's what we stand for.**

- More than 100 years of experience and industry knowledge
- 1,400+ employees
- In more than 30 countries globally

**One team focused on helping you succeed.**

**One Team means we work together with our distributors and end users for the common goal of mutual success.**

Locally, we are proud of the close partnerships we forge with our distributors, who are an extension of the Dormer Pramet network.

Application Specialists and Technical Specialists are available to help you finish the job on time.

# ONE SOURCE

**We have one of the widest product portfolios in the market, covering solid to indexable, high speed steel to solid carbide and general purpose to high performance application tooling.**

As a result, our products are used in a diverse range of industries all over the world, from maintenance departments and fabrication workshops to international suppliers for the railway, automotive and aerospace industries.

## **Drilling**

We provide a diverse range of solid drills to meet almost every rotary hole-making requirement, from general purpose hand-held to high performance CNC applications.

Also offered is a broad indexable program with numerous grades and geometries to handle any material group being machined.

## Milling

Our indexable milling range features a choice of grades including MT-CVD and PVD coated, with multiple geometries for finishing, roughing and universal applications. The solid milling program includes a wide selection of designs, lengths and coatings to support all common applications, from roughing to finishing and everything in between.

## Turning

Our indexable turning tools cover a wide range of operations including general turning (external and internal), parting-off, grooving and threading, as well as heavy turning.

Our offer features MT-CVD and PVD coated inserts as well as ceramic, cermet, CBN and diamond grades.

## Threading

Our rotary threading tools cater for a variety of chamfer lengths and thread forms in both hand and machine applications. This includes general purpose taps, multi-material and material-specific taps, fluteless taps and thread milling cutters.

We manufacture indexable threading tools for internal and external thread production in most materials and thread forms. This includes both full and partial profile inserts with a wide range of tool holders and threading bars.

# ONE FUTURE

**We are committed to making every step of your contact with us as simple as possible.**

Our offer of rotary and indexable drilling, milling, threading and turning tools comes from listening to you — our customers.

*The future is collaboration.*

**Supported by effective management systems and processes, every Dormer Pramet team member is committed to our vision:**

Zero harm to our people, the environment we work in, our customers and suppliers.

*The future is safety.*

**Dormer Pramet is committed to protecting the environment, including the prevention of pollution arising from our activities.**

The impact of our operations is under constant review, with the aim of reducing our consumption of raw materials and energy at every opportunity.

*The future is green.*

## Always advancing

Annual product introductions support customer demands for increased product and process performance.

Our commitment to providing the right offer for your needs goes beyond the introduction of new tools.

Our flexible and pro-active approach to technical support and training ensures you have access to our industry knowledge. Among the services our team provides are:

- Tool selection software
- Technical handbooks and charts
- Online product search and ordering
- Product literature
- Digital apps
- Webinar and e-Learning programs
- Tailored training packages

Our purpose-built R&D and training center confirms our on-going commitment to developing an even deeper understanding of market requirements.

*The future is technology.*

**Today, tomorrow, forever.  
Simply Reliable.**

# MULTIPLE APPLICATIONS

**Our dedicated global production facilities support the manufacture of standard and special tools to recognized international standards, including ISO, DIN, ANSI and JIS.**

We are ISO 9001 (Quality Management Systems), ISO 14001 (Environmental Management Systems) and OHSAS 18001 (Health & Safety) certified.

This plus our extensive offer creates opportunities to be involved in many different application segments.

- **POWER GENERATION**
- **ALTERNATIVE ENERGY**
- **FORESTRY**

- GENERAL ENGINEERING
- OIL AND GAS
- AEROSPACE
- AUTOMOTIVE
- MAINTENANCE, REPAIR & OPERATIONS
- MEDICAL
- AG & CONSTRUCTION

Our products are commonly found in industries such as:

- TRAILER, TRUCK & BUS
- RAILWAY
- BAR PEELING & SCARFING

# SIMPLY RELIABLE

As a professional you can judge the quality of work by just looking at the chip. Our chip is a clean and uncomplicated shape that in itself tells a story. It is a clear and consistent signal and that's why we use it as a symbol for being **Simply Reliable**.
