PFAS Declaration

Dear customer,

Protecting people and the environment from exposure to potential harmful substances is an important issue for Dormer Pramet, and we assure you that we take this matter seriously.

Per- and polyfluoroalkyl substances (PFAS) are also one of them which we continuously monitored.

We can guarantee that hardmetal (cemented carbide) and steel products such as inserts, tools, rods etc, manufactured by Dormer Pramet **do not contain PFAS** substances.

Kind regards,

Shib Banerjee
